

Just A Little Bit Of Love

Maywood

Just a little bit of love
That is all we need for the second day
Is it hard to be a friend
For a little while in a simple way
Just a little bit of love
And a friendly face makes the world look bright
And a shining star above
Will help you through the darkest night

When you feel down
Don't sit and cry the whole day through
Don't wonder why
It all must happen to you
Put on your coat, come over
No, it can't be that bad
Put on a smile, don't look so sad

Just a little bit of love
That is all we need for the second day
Is it hard to be a friend
For a little while in a simple way
Just a little bit of love
And a friendly face makes the world look bright
And a shining star above
Will help you through the darkest night

Don't walk away
When times get rough you can't hold on
Maybe some day
You'll be alright where you belong
Put on your coat, come over
No, it can't be that bad
Put on a smile, don't look so sad

[2x:]

Just a little bit of love
That is all we need for the second day
Is it hard to be a friend
For a little while in a simple way
Just a little bit of love
And a friendly face makes the world look bright
And a shining star above
Will help you through the darkest night

And a shining star above
Will help you through the darkest night
