

# Ain't It Strange

Maze

Ain't it strange how things do change  
Ain't it strange how things do change

One day your up and doing fine  
Everything is right on time  
Soon as your somewhere bound  
Someone will make a change and turn you all around

Ain't it strange how things do change  
Ain't it strange how things do change

Somethings you've seen you'll see no more  
Nothing is like it was before  
Time passes by and so do we  
But things will be alright as long as you are free

Ain't it strange how things do change  
Ain't it strange how things do change

Things are changing changing all the time  
Nothing stays the same keep an open mind  
Things are changing changing all the time  
Nothing stays the same keep an open mind  
Things are changing changing all the time  
Nothing stays the same keep an open mind

Ain't it strange how things do change  
Ain't it strange how things do change  
Ain't it strange how things do change  
Ain't it strange how things do change
