

Call On Me

Maze

I want to know that your in comfort
I want to know that your alright
I want to feel that if you need me
I'm gonna be there day or night
And if your ever feeling troubled
The way we all seem to sometimes
I'm gonna be there just to love you
And maybe baby ease your mine

If you ever need me call on me
You just have to call ooh yea
I love you you know it's true
If your ever all alone Don't you fret pick up your phone
I love you you know it's true

And I wanna be there to make you happy
To share the joy you give so much
To have a chance to be right near you
To feel the warmth of your touch
I would never never never hurt you
And make you think that I don't care
I'll be around to give you all of me
I promise I'll be fair

If you ever need me call on me
If your ever lonely call on me

I love you you know it's true
I love you you know it's true
