

Can't Stop The Love

Maze

Don't stop don't stop that lovin' feelin'
Don't stop don't stop that lovin' feelin'

There's music in the air love is everywhere
And if you really care you won't let go
Time is on our side love will be our guide
We'll be satisfied this much I know
It doesn't matter the weather
We are in this thing together
And with you and me this love will grow

Oh you just can't stop the love
We'll sing a song we'll get along
Oh no you just stop the love
We'll see the light we'll be alright

Don't stop don't stop that lovin' feelin'
Don't stop don't stop that lovin' feelin'

You will always find love will be on time
They'll be peace of mind for you and for me
No matter what they say love will find a way
We will be ok just wait and see
Some will try to change us
They will try to rearrange us
But we'll put it back the way it should be

Oh you just can't stop the love
We'll sing a song we'll get along
Oh no you just stop the love
We'll see the light we'll be alright

Oh you just can't stop the love
We'll sing a song we'll get along
Oh no you just stop the love
We'll see the light we'll be alright
