Change Our Ways

Maze

I know the part you like to play
How long will you go on this way
Things you do blow my mind
I see you doing it to your own kind
Now you've got babys too
What in the the world is wrong with you
Don't you even care at all
Brothers sisters here my call
Can't you see what your doing is wrong
Why can't we why can't we get along
Check yourself we have got to
Change our ways
Don't you know can't you feel in your heart
It's your people that your tearing apart
This I know we have got to
Change our ways
People don't give a damn
I tried but I can't understand
Always hurt the ones we love
I wonder what we're thinking of
All the things we're going through
Is a reflection of me and you
Maybe we've lost our way
Fussin' fightin' everyday
Can't you see what your doing is wrong
Why can't we why can't we get along
Check yourself we have got to
Change our ways
Don't you know can't you feel in your heart
It's your people that your tearing apart
This I know we have got to
Change our ways
