

Color Blind

Maze

I've often heard that white is right
You better believe black is alright too
So is blue and green and yellow
What difference should it make to you

These ties we got on us just ain't to hip
I know you got your thing and I've got mine
We've been judging people by colors
Maybe we should all be color blind

What I want to know is
What color have you colored peace
What color is harmony
What color have you colored peace
What color is harmony

There's a saying you can't judge a book by it's cover
What are we doing but just that
We've been judging people by color
Love ain't got no color that's a fact

What color have you colored peace
What color is harmony
What color have you colored peace
What color is harmony
