

# Family

Maze

I'm out on the road with my family  
Everything is going good  
Spreading the feelings that we feel inside  
And we're having fun and we live as one  
And you know it's true that's why we like to be with you

The ties that bind us together  
Nothing can take that away  
Stickin' together through everything  
And you know we can cause we understand  
You are family too that's why we love to be with

We are happy cause we're one big family  
We are happy cause we're one big family  
We are happy cause we're one big family  
We are happy cause we're one big family
