Like the flowers need the rain like a blindman needs his cain  
I need you  
Like the darkness needs the night and the moonglow needs the li  
ght  
I need you  
Like the children need to play they laugh and sing from day to  
day  
I need you

I found out about you I can't live without you

Like a person needs a soul like the winter needs the cold  
I need you  
Like the fire needs the air I won't burn unless your there

Like a baby needs to cry if you go I swear I'll die

I found out about you I can't live without you

Like a person needs a soul like the winter needs the cold  
I need you  
Like a baby needs to cry if you go I swear I'll die  
I need you

I found out about you I can't live without you
