

I Need You

Maze

Like the flowers need the rain like a blindman needs his cane
I need you
Like the darkness needs the night and the moonlight needs the light
I need you
Like the children need to play they laugh and sing from day to day
I need you

I found out about you I can't live without you

Like a person needs a soul like the winter needs the cold
I need you
Like the fire needs the air I won't burn unless you're there
I need you
Like a baby needs to cry if you go I swear I'll die
I need you

I found out about you I can't live without you

Like a person needs a soul like the winter needs the cold
I need you
Like a baby needs to cry if you go I swear I'll die
I need you

I found out about you I can't live without you
I need you
