

I Wish You Well

Maze

You say it's all over but you won't go
In spite of all the good times you hurt me so

But I wish you well girl I hope you find your truth
I wish you well girl I want the same things too

I use to be your lover but now friends
That's the only way a true love begins
I wish you well girl I hope you find your truth
I wish you well girl I want the same things too

You say it's all over but you won't go
In spite of all the good times you hurt me so

But I wish you well girl I hope you find your truth
I wish you well girl I want the same things too
I wish you well girl I hope you find your truth
I wish you well girl I want the same things too
