

It's gonna be tough if we are to be together  
But if that's what we want everything will be ok  
I love will survive if we really need eachother  
No matter how hard we can surely find a way  
The closer we get the more we're gonna find the reason  
Soon we will have a love that cannot be denied  
I'm gonna be right there to help you  
You can depend that I will be right by your side  
Just us we're gonna make it we're gonna make it if we try  
Just us we're gonna make it we're gonna make it you and I  
Just us we're gonna make it we're gonna make it you and I  
There's gonna be time we'll have to show some understanding  
Whatever it is I know that we can work it out  
The joys and the pains is something we'll go through  
I do believe that's what love is all about  
We live and we learn that's the way life treat us  
Sometimes you'll see things that make you doubt your mind  
I'm gonna be right there I'm gonna be right there to love you  
Cause I do believe that love will stand the test of time  
Just us we're gonna make it we're gonna make it if we try  
Just us we're gonna make it we're gonna make it you and I  
Just us we're gonna make it  
Just us just us just us just us  
Just us just us just us just us
