

Look At California

Maze

Look at california Look at california
Look at california Look at california

The rollin hills seem to do something for you
It seems there meant to be looked on by you
And when the sunshine is doing it's thing
Then you know that all you see is true
Every day every night the same old groovy feelin
People that live a lot love a lot
And everything there is so good

Look at california
Look at california

All the flowers are bloomin all about
Every kind you and I could think of
And if you see anything that's missin
Then they make it up to you with love
Whether up or whether down
It don't even mean a thing
Look at the things around
The peace you've found
And all that you feel is so real

Look at california
Look at california
Look at california
