

Magic

Maze

You know what to do for me
Call it intuition
Mysterious as you can be
That ain't superstition
Can't believe it's you I've found
Having you around is just like

Magic the birds begin to sing
It spreads like everything
Magic you came into my life
Put your spell on me

I am so amazed at you got me so elated
All the little things you do I appreciate it
Girl you make it oh so clear
Whenever you are near it seems like

Magic I know just what I feel
I wonder if it's real
Magic you came into my life
Put your spell on me

Magic the birds begin to sing
It spreads like everything
Magic I know just what I feel
I wonder if it's real
