

Nobody Knows What You Feel Inside

Maze

You know what you feel what you feel is real
Nobody knows what you feel inside

You should please your own desires let it burn like fire
Nobody knows what you feel inside

Problems you go through no one knows like you
When work is slow and all the mouths need feeding

When things ain't going right man your so uptight
And your the one who's suppose to be leading

If you could only tell just how you've been through hell
Nobody can take the same ride

And they can never know the things within won't show
Nobody knows what you feel inside

Nobody knows
Nobody knows
Nobody knows

Nobody
Nobody
Nobody knows what you feel inside

Nobody
Nobody
Nobody knows what you feel inside
