

Song For My Mother

Maze

I've been away for such a long time
The changes I've been going through
Has really helped my mind
No it ain't been easy but I don't really care
The storm has come and gone

And you are still there
Hangin' there you have been every single thought I've had
And I love you even more and that can't be bad
I miss you and wanna be with you
Throughout all time Throughout all time

La da da da da da that's how I feel about you
La da da da da da that's how I feel about you
La da da da da da that's how I feel about you
La da da da da da that's how I feel about you

Now I think I understand what you really mean to me
You're my one and only momma and I'm glad I see
I miss you and wanna be with you
Throughout all time throughout all time

La da da da da da that's how I feel about you
La da da da da da that's how I feel about you
La da da da da da that's how I feel about you
La da da da da da that's how I feel about you
