

We Need Love To Live

Maze

You take a look around this world of ours things ain't going so good

We could change it but we seldom do what we should

Why most it be so hard to give each other things we need

Deep in my heart I know it's not the way that we should be

Seems like we take so much we need to learn to give

We need love, We need love to give

We need love, We need love to live

It's time, it's time time for joy It seems we've tried everything else

If it ain't the way we want We have no one to blame but ourselves

Why it should be this way I'll never ever understand

Cause we need each others love and that's the way the master planned

Of all the things we have this I'm positive

We need love, We need love to give

We need love, We need love to live

Stop messin' around with love

Stop messin' around with love
