## Cry, Cry

Cry, cry for you Just like you knew I wouldn't do Cry, cry for you Just like a song in the last light

Should I leave it all away Not like the kindness that you gave That's why it never seems the same Behind your eyes

I stood behind when no one asked me And took you home after the fight I drove my car into city lights Drove down the road that I am on

Cry, cry for you That's what you think I want to be Cry, cry for you An empty heart that sees me through

Cry, cry for you Just like you knew I wouldn't do Cry cry for you Just like a song in the last light

Cry, cry for you
