

Hair And Skin

Mazzy Star

Your hair and your eyes
I saw them in the night
Your face, your disguise
I felt it in the night
Your cool clammy skin
It could be right beside me
I saw you swimmin' over here
You looked so fragile
And don't you know her eyes were red?
Your hair and your skin
I know my desire
I felt akin
To my desire
Your eyes and your face
I dreamed them in the night
Your hair and your skin
I saw them swimmin' over here
And don't you know you're life itself?
