

# So Tonight That I Might See

Mazzy Star

Come up crash with the muses  
Fells dust into ash  
Come so close that I might see  
The light inside me I might see

Let me hold you tight and arms  
Tight and arms you lost your chance  
Come so close that I might see  
The crash of light come down on me

With good luck I'll find  
The dark stop me now  
Find me to your heart  
Let me hold you tight  
Like rain and sunshine on a rainy day  
See the lights

Come so close that I might see  
See the light come down on me  
Searching like the fresh goes by small  
Like wind refuse to die

Free me now so I can see  
The taste of wind who lock me  
Does the wind indeed like me  
Does the wind indeed like me

With good luck I find the dark stop me now  
Find me to your heart  
Let me hold you tight  
Like rain and sunshine on a rainy day

Let me hold you tight and arms  
Tight and arms you lost your chance  
Come so close that I might see  
The crash of light come down on me  
The crash of light come down on me  
The crash of light come down on me

Let me hold you tight and arms  
Tight and arms you lost your chance  
Come so close that I might see  
The crash of light come down on me

With spin luck I'll find the dark  
Stop me now find me to your heart  
The crash of light come down on me  
So tonight the crash goes by

Small like wind and refuse to die  
The crash of light come down on me  
Come so close that I might see  
See the light come down on me

I hold you tight like rain  
Sunshine on a rainy day  
Sunshine on a rainy day
