

Sparrow

Mazzy Star

You used to say don't give me things
Look at me with your cold eyes, you know what I'm saying

You used to say I got a heart like a sparrow
And a smile just like clay

And like a calm word would soothe you
And a smile from my heart would suffice

You used to say I'll be fine on my own
Give me one bottle of wine and two for the road

You used to say I've got a heart like a sparrow
And a smile just like clay
