

# Down On The Farm

MC Chris

It's mc chris keep your head low  
Stay in your car you better go home  
Cause there's nothin' but starch in the corn below  
Gettin' down on the farm not on the down low  
With a shovel and hoe you sold the land  
With a burger and fries from the hotdog stand  
Just the sun and a doobie and a farmers tan  
Just an empty old barn and a bored rock band  
Chillin' at the seminole fucked up on tobacco  
Kids dive in with Tom to go back home  
Life's a vacuum but here it's wide open  
While your busy mopin' I'm in the dark gropin'  
Down on the farm motorcycles not mopeds  
Dead old ladys not dreadlocked dead heads  
Carburetor on the front lawn, lemonade on the porch  
Luke was a farm boy before he used the force  
word up

You don't know who you are with your dope beats and your fat porsches  
Name is mc chris I prefer back porches  
Don't try to file a case cause you got no sources  
The laws on my side cause the law I enforces  
On your stupid styles they're just dumb  
Tougher than leather your not tougher than my gun  
Cause we hold our own out in the mid west  
We don't need gunin' law with him we're not impressed  
Don't wanna run away like Wendy and Peter Pan  
Call it the Bible belt I call it Neverland  
Sippin' down chili dogs outside the Tastee Freeze  
Diane sittin' on Jacky's lap hands between his knees  
Down on the farm with shoot the queen with a gun?  
Don't cause no harm just wanna have fun  
Drink Pabst, race cars, maybe tip a cow  
Down on the farm I'm down with a hoe down

Oh mc chris you're so nice only 25 dollars  
You say cowboy I say cow

If the shit goes down  
If the shit goes down (better be ready)  
If the shit goes down (better be ready)  
If the shit goes down (better be ready)

If the shit goes down I got my six shooter  
Get your ass outta town I'm a boosted roto rooter  
More like Norman Bates unlike Uncle Jesse or Cooter  
Name is mc chris I don't miss now pass the buddha  
Showdown at sundown Daisy Duke at my side  
Honey says you don't get shot I'm sure to be your bride  
I replied hell yeah as the gun did decide  
Sink into the soil as Black Bart grabbed his heart and died

There's no way you'll survive
