I'm like Kenny Rogers in Six Pack Girls won't give my dick back All this sex affects my syntax The pistol I pack's impact

Make's you gasp infact So sit back, relax While I grind this axe On your Brazillian wax

Without finishing fast I bask in the slash Underneath your cinnamon ass About ten minutes it lasts

I pull it out and pass gas My name is MC Chris Kinda cute Kinda crass

Ladies love me sending pic's
Where they're scantilly clad
Send some back
Then invite them to come crash at my pad

They're like O M G, Oh whut up, that'd be so rad We make the beast with two backs Until we both get whiplash

Get with the program Strip to the slow jam Slip on a Trojan Kissin' the toes and

Move to the knees
Go back, repeat
The job ain't done
'Til you ruin the sheets

My name is MC And your name is a creep Because you creep into my bed About every week

Tractor beam on my bed Got you actin' le freak Tractor beam on my bed Got you actin' le freak

I should be flirtin' with virgins Instead of jerkin' my gerkin I should be working the circuit Assertive for certain

With little aversion
They all open they curtains

Mini me starts emergin To be rid of his burden

Did I fail to mention All the ladies say word Got a panty collection Like a Japanese perv

They're prepared to purr
And to serve up they curves
I skip the main course
I prefer the hors d'overs

I like thongs, like grannies Like any old panties Hanging on the lampshades As I tap on her back space

I like bows, like lace Like suckin' her face I like fuckin' her waist I make a bucket of paste

When her eyes roll back
It means her memory's erase
Slow-mo, tip-toe
My ass out of her place

I quickly run to the clinic A q-tip in my dick I wait two very long weeks To know if these nuts need a medic So c'mon

Go back, repeat
