

# Whiskey River

MC Chris

Beer I love it I guzzle it down  
And dope I smoke it pound for pound  
And girls I love them but they can't be found  
Cause they're throwin' curve balls from the pitchers mound  
Cheese steaks I eat them when my hungers fierce  
I love my girl who's tongue is pierced  
Every Thursday at eight my family would watch Cheers  
Imagine people drinkin' beers watchin' people drinkin' beers  
Alcohol is evil foot and mouth introducer  
Like a thread in a needle it's a sexual seducer  
Name is mc chris mc bucks is my producer  
Keep your bum away from mr. motor cause he might goose her  
Wild turkey til the rooster Mamoosa in the mornin'  
doing shots like goose tonight well one is what your formin'?  
Cause your stomach needs some pumpin', liver needs some lovin'  
And your girls needs a johnson that's worthy of shovin'

Whiskey River don't leave me hangin'  
I need a cold one to keep the cool kids bangin'  
Whiskey River I don't wanna drive  
I'm gonna have to face the rest of my life

Gin and tonic rather than the chronic  
Watch the bubbles fizzles it's kinda hypnotic  
If beer was water you know I'd be an aquatic  
Beer makes you transform cause beer is robotic  
Enough about it or have I said too little  
Take my beer away from me and play monkey in the middle  
I kid you not you'll be eatin' snot  
If you fool with my brews or partake in my pot  
Without askin' don't be robbin'  
we like Baskin Or else I'll be sobbin'  
throwin' punches while I'm hob knobbin'  
a one way ticket on me to John Hopkins  
I'm stockin' my cellar with liquor propellers  
So me and the fellas drink two and burp like hella  
A melon that's throbin' come mornin' time  
I'm in another fat pickle from drinkin' and rhymin'

Whiskey River don't leave me hangin'  
I need a cold one to keep the cool kids bangin'  
Whiskey River I don't wanna drive  
I'm gonna have to face the rest of my life

Know what I mean break it down baby

Whiskey River don't leave me hangin'  
I need a cold one to keep the cool kids bangin'  
Whiskey River I don't wanna drive  
I'm gonna have to face the rest of my life
