

106.3, the best in modern alternative. We've got laptop rapper MC Lars.

Lars, how does it feel to be a rock star?

Well, I'm glad people like my songs, it's just that I still

Sleep on people's floors, lose money on tours
Owe my parents dough, my tummy's got to go
CD at HMV but they hate me on AP
Admit, Bush screwed up, so Toby Keith shut up

Now who's that rock star!

L-A-R-S!

Now who's that rock star!

L-A-R-S!

On your stereo, pumpin' on your stereo
Everybody here we go with my punk rock MC flow
On your stereo, pumpin' on your stereo
Everybody here we go with that

And yo I hate your boyfriend's band, let's run off to Japan

My life's a bivouac, hip-hop Kerouac
Punk rock drum and bass, all up in your face
21 years old, thank God they broke the mold!

Now who's that rock star!

L-A-R-S!

Now who's that rock star!

L-A-R-S!

I don't break dance very well but I thought that you could tell

Crazy props to Melle Mell, hey DMC I'm raising hell
I hit my mark like William Tell, I'm the kid they can't expell

Tim O'Toole fell down the well, compose my rap beats on a Dell (dude)
