

# Something Wicca This Way Comes

MC Lars

Five foot two with that Celtic tattoo  
Straight out the coven with her hair died blue  
Polytheistic, no pagan can deny this  
I found her in the backyard praying to Osiris  
I asked her for her name, she calmly said Antigone  
I knew from her mood ring that homegirl must be digging  
me  
We talked about morality, if she was big on bigamy  
She said that's just the Mormons and then she got all  
giggly  
Take a black pentagram, flip it on its back  
That's how she gets down, Wicca like that  
Take a black pentagram, flip it on its back  
That's how she rolls 'cause she's Wicca like that

Something Wicca this way comes  
Something Wicca (Wicca, Wicca) this way comes  
Something Wicca this way comes  
Something Wicca (Wicca, Wicca) this way comes

Earth, water, wind and sun  
Screw eHarmony, she's the one

She's got a book of spells and a python named Apollo  
She calls it her familiar but I find that hard to  
swallow  
I ask her what's for dinner, she consults the tarot  
cards  
Full scale Stonehenge model chilling in the front yard  
When the moon is full we go dancing in the woods  
Our pentacles get tangled but it feels so good  
No need for cable, every time we get board,  
We're hollering at Bacchus on a Wal-Mart Ouija board  
And we take a black pentagram, flip it on its back  
That's how we get down, Wicca like that  
Make a magic circle, I'll flip her on her back  
That's how we roll 'cause we're Wicca like that

Earth, water, wind and sun  
I never knew witchcraft was so much fun  
Earth, water, wind and sun  
Screw Match.com 'cause she's the one

What will people think when they hear that I'm a Wicca  
freak  
What will people do when they find out it's true?  
I don't really care if they label me a Wicca freak  
There ain't no disguising the truth

And we take a black pentagram, flip it on its back  
That's how we get down, Wicca like that  
take a black pentagram, flip it on its back  
That's how we roll 'cause we're Wicca like that  
And I treat her like pentagram, flip her on her back  
That's how we get down, Wicca like that  
I treat her like pentagram, flip her on her back  
Pierced to the max like a chick from the Craft
