

# I Miss You

MC MAGIC

Baby baby I miss you  
I need you here with me  
My life is incomplete  
How I long to see your face  
I miss your pretty smile  
Without you there's no meaning

Tell me how can I move on?  
Show me how to carry on  
When you're no longer there  
And tell me how can I be strong  
When my happiness is gone  
If you're no longer there

I close my eyes and let the rain fall from the sky  
And wish'd I had never ever made you cry  
Regardless of what circumstance be  
You kept your word and your promise to always honor me  
So what I gotta do to make this up to you  
How can I make you feel the love that I still have for you  
Did I lose your trust? did I lose my mind?  
Did I lose the gift the lord sent me from the sky  
I guess you could say I kinda went too far  
Played my selfish little games that only broke your heart  
Into a million pieces  
When you layed there and cried  
And all that I can do is say I'm sorry I lied  
Remember when I told you that the day that I die  
I want you to be the only one right there by my side  
You've been my happiness  
My best friend  
My everything  
And even now my word means nothing  
I love you till the end

Tell me how can I move on?  
Show me how to carry on  
When you're no longer there  
And tell me how can I be strong  
When my happiness is gone  
If you're no longer there

How can I be strong knowing now that you're gone  
I remember all those days  
You used to hold me in your arms  
Shed tears every night something I've never done before  
The life of a player wasn't worth losing my girl  
Your my world and I need you to do anything to see  
Your face of a queen now it's just more than a friend  
Till the end I will love you  
You will never be replaced  
Damn you got me living this unhappiness  
Tell me how can I move on it's like I'm living a sad song  
Just to hear your breath or the sound of your voice  
You were the light in my life  
I was afraid to let you go  
The days go by don't wanna live no more

If I could touch you one last time  
Show me a sign I'll be there  
I hold my head down as you're no longer there  
But I know in my head you're looking down at me  
How could the sweetest girl in the world be taken from me?

So baby baby I miss you  
I need you here with me  
My life is incomplete  
How I long to see your face  
I miss your pretty smile  
Without you there's no meaning

Tell me how can I move on?  
Show me how to carry on  
When you're no longer there  
And tell me how can I be strong  
When my happiness is gone  
If you're no longer there
