Get Over It

McBusted

Everybody says that i'm a mess
Because your left i should be moving on
Can't get out of bed and get dress
Crazy obsess still can't believe your gone

Pre You left me high and dry
Wasted in time
Gotta pick myself up

And stay out all night singing

Get up get up get up get over it
Get up get up get up get over it
Get up and get over it Get up and get over it
Get up get up get up get over it
Get up get up get up get over it
Get up and get over it Get up and get over it
Put me down down down down down

Get up and get over it

Everybody says that you're do
And just finding that's so hard to take
So i guess that it's my fault that you left
Cause you're telling my friends that i was just a big mistake

Pre You left me high and dry
Wasted in time
Gotta pick myself up

And stay out all night singing

Get up get up get up get over it
Get up get up get up get over it
Get up and get over it Get up and get over it
Get up get up get up get over it
Get up get up get up get over it
Get up and get over it Get up and get over it
Put me down down down down down

Get up and get over it

I know that we can't never go back
You told me that you never wanted that

I get that, it's clear that

You better on your own

It's been so long since we broke up
It's about time i woke up

We broke up, We broke up

I guess i gotta let you go

Get up get up get up get over it

Get up get up get up get over it
Get up and get over it Get up and get over it
Get up get up get up get over it
Get up get up get up get over it
Get up and get over it Get up and get over it
Get up get up get up get over it
Get up get up get up get over it
Get up and get over it Get up and get over it
Get up get up get up get over it
Get up get up get up get over it
Get up and get over it Get up and get over it
I was down down down down down

But i'm up and i'm over it
