

# I Wanna Hold You

Mcfly

Tell me that you want me baby  
Tell me that it's true  
Say the magic words and i'd distroy the world for you  
An army for the broken hearted  
Marching through the streets  
The citizens surrender and they're falling at your feet

I wanna hold you  
My skies are turning black  
(Feels like a heart attack)  
And I'd do anything you ask  
I wanna hold you bad

I'd melt the polar ice caps baby  
Watch them flood the earth  
I'd do anything to show you what your love is worth  
So won't you show me your devotion?  
to heal my aching heart  
You keep polluting like the ocean, tearing me apart

I wanna hold you  
My skies are turning black  
(Feels like a heart attack)  
And I'd do anything you ask  
I wanna hold you bad

Attention please,  
we interrupt this program,  
with some disturbing news,  
A world wide evacuation,  
we're going to lose,  
They've mobilised the nation,  
I guess it shows us just the love can do

I wanna hold you  
My skies are turning black  
Feels like a heart attack  
And I'd do anything you ask  
I wanna hold you bad, bad, bad  
I'd do anything you ask  
I wanna hold you bad
