

# Nothing

Mcfly

Everything she says to me  
Is nothing  
Even words of sympathy  
Mean Nothing  
Im feeling down and i hate the sound  
Of Nothing  
What's the point in hanging around  
For Nothing?

And i can't remember falling in love with you  
This is agony  
and you know you're putting me through  
this misery taking every memory  
Just tell me why this misery won't go away  
How can we carry on this way?

I'm finding it hard to hold a conversation  
I'm being with this just in agrovation  
I can stay but i haven't got the patience  
I'm sick of pathetic explanations

That's why i forgot falling in love with you  
This is agony  
and you know you're putting me through  
this misery taking every memory  
Just tell me why this misery won't go away  
How can we carry on this way?

You'll never bring me down  
Cos i'm far above you  
You think you're strong  
But you're nothing to me now  
And i hope you will be happy  
This time around

And i can't remember falling in love with you  
This is agony  
Do you know you're putting me through  
this misery taking every memory  
Just tell me why this misery won't go away  
How can we carry on this way?
