

# Massacred And Dismembered Culture

MDC

I see spirits rising from war's sad remains  
they have survived with their way of life  
To rebuilt again with what you cannot destroy  
The love in their hearts for their lives and their earth

You've massacred and dismembered them  
You've tortured and mistreated them  
But you'll never steal, you'll never kill  
Their culture

And some will survive though you try to kill millions  
And the ones that survive will demand retribution  
There's truth to their pleas, their demands and their cries  
And we have to stand up to your cheating and lies

You've massacre and dismembered  
And the atrocities are remembered  
but you'll never steal, you'll never kill their culture

before conquistadors and Christians and Custer's last stand  
The Buffalo, Eagle and Navajo roamed free on this land  
Hitler's Germany, Apartheid, Nicaragua's blood drenched sand  
The tears of all the women, the folly of men  
Hopi prophecies say "Peace will come to mother's earth's friends"

The old wise ones taught love and respect before they passed on  
And the young, they remember and they sing spirit songs  
Mr. Greed, Mr, Government we all know you are wrong  
The more you try to divide us we grow together and strong  
And we'll never die

You're massacring and dismembering us  
Torturing and mistreating us  
But you'll never steal  
You'll never kill our culture
