

# Missing Time

MDFMK

Black is everything  
Pull me right out of reality  
The emptiness that's me  
Black is everything  
Put me right out of my misery  
Do what you want to me

Life outside goes on  
The world is crashing inside out  
Gently hacking off the hinges

Erase the space, erase the memory  
Missing time  
What I don't know will never hurt me  
Missing time  
Cannot forget cannot remember  
Missing time  
This information is forever  
Missing time

Black is everything  
Got the answer right in front of me  
It's everything I see

Time outside moves on  
The world I know is crumbling down  
Bringing to a lost sensation

Erase the space, erase the memory  
Missing time  
What I don't know will never hurt me  
Missing time  
Cannot forget cannot remember  
Missing time  
This information is forever  
Missing time

Erase the space, erase the memory  
Missing time  
What I don't know will never hurt me  
Missing time  
Cannot forget cannot remember  
Missing time  
This information is forever  
Missing time

Missing time...

Missing time...

Missing time...

Missing time...
