

Can You Count, Suckers?

Me vs Hero

Call me cynical,
but if we make it through the night it will be a miracle,
we're flat backed against the wall
Listen there's a thousand things to say,
but with every step we take we're one less pace away
'One night'
One less day day to waste,
we'll cover up our tracks to keep them off our backs,
while we make a getaway

Yeah so, we've come a long way from where we set sail
Get out, before we drown
'This ship is going down'

'What now'
Yeah we're getting to the part
'Good luck'
We're just getting started, the tables are turning
Listen there's a thousand ways to play,
but with every move we make we'll take their breath away
'One less'
One less back to break, this part of town is ours and in hearts we are
Guaranteed a victory, because tonight we've come so far, yeah we made
a getaway

Yeah so, we've come a long way from where we set sail
Get out, before we drown
'This ship is going down'

Yeah so, we've come a long way from where we set sail
Get out, before we drown
'This ship is going down'

Yeah, we'll tear them apart tonight
Yeah, we'll bury them all alive, alive

So what's left to say
What we said was all worth saying
We're here to stay
Just try and sway us

Yeah so, we've come a long way from where we set sail
Get out, before we drown
'This ship is going down'

Yeah so, we've come a long way from where we set sail
Get out, before we drown
'This ship is going down'
