

# My Warren Sense Is Tingling

Me vs Hero

We're the boys who were chosen  
We're standing on the front line  
Our hearts were beating faster  
Every breath we take gets harder to  
Breathe it out we'll shout about the time  
We pulled out all the stops this broken clock was keeping time

Stay young with us  
Never let anything  
Stop you from believing  
Stay young  
Do everything you need to  
Don't let time take anything away from you

Come and place your bets on  
What started out as little more than fun  
Has grown so epic so lets not let this slip  
You can play the targets and we can play the weapons that will  
bring you down

Stay young with us  
Never let anything  
Stop you from believing  
Stay young  
Do everything you need to  
Don't let time take anything away from you

With the same look in our eyes  
We'll stand right here by each other side  
We won't let anything drag us down  
We'll live for what we have right now
