

Carved in Stone

Mean Streak

Out of the storm, we ride into eternity
Flying high our fires burning bright
In to the light, we're set our minds on victory
No remorse we'll take on every fight

We're standing tall, together we can't fall
Forever we will raise above it all

We've sailed the seven seas, our destiny was all we were given
So many memories, some histories are long forgiven
We've sailed the seven seas, our destiny was all we were given
So when we reach the end, we will find...
Our fate was Carved in stone

Stick to our guns, we don't give in we don't give up
Never shall we walk the failures way
The power of light, will guide us through our destiny
This is our tale this is our prophecy

We've sailed the seven seas, our destiny was all we were given
So many memories, some histories are long forgiven
We've sailed the seven seas, our destiny was all we were given
So when we reach the end, we will find...
Our fate was Carved in stone
