

Raise Your Hands

Mean Streak

Been waiting so long, bided our time. Waiting for the day
When we're standing strong, united in line. Your time to pay

We will follow our hearts this time, we are past point of no re
turn

No regrets there's no questions why
We will stand, we will fight

Don't give up the fight. Raise your hands tonight. Tonight

The tables are turned, lights out tonight. Fade in to black
The bridges are burned, take on the fight. A stab in the back

We will follow our hearts this time, we are past point of no re
turn

No regrets there's no questions why
We will stand, we will fight

Don't give up the fight. Raise your hands tonight. Tonight
