## **Raise Your Hands**

## **Mean Streak**

Been waiting so long, bided our time. Waiting for the day When we're standing strong, united in line. Your time to pay We will follow our hearts this time, we are past point of no re turn No regrets there's no questions why We will stand, we will fight Don't give up the fight. Raise your hands tonight. Tonight The tables are turned, lights out tonight. Fade in to black The bridges are burned, take on the fight. A stab in the back

We will follow our hearts this time, we are past point of no re turn No regrets there's no questions why We will stand, we will fight

Don't give up the fight. Raise your hands tonight. Tonight
