

## Sin City Lights

### Mean Streak

A hollow man, a broken dream  
Trying to save my soul  
I try to find, some peace of mind  
Lost beyond control

The night is black, I'm crying out  
My wasted soul tonight  
The memories, are haunting me  
I see a distant light

You got something I want, you got something I need  
It makes me feel so alive, I'm coming on like a hurricane

Sin city lights, I see you shine so bright  
Sin city lights, you've got me rocking, rocking tonight

I run away, I'm hiding out  
Sneaking through the night  
Eternity is in my eyes  
I'm heading for the light

You got something I want, you got something I need  
It makes me feel so alive, I'm coming on like a hurricane

Sin city lights, I see you shine so bright  
Sin city lights, you've got me rocking, rocking tonight
