

Sons of Metal

Mean Streak

We embrace our legacy this is what we are
In a pitch black night a shining star
We rule our destiny we will never fall
We will arise above it all
Stand and deliver with the power in our hands
Stand and deliver 'cause we are in command

Hail, hail sons of metal
We were born and raised to release the flame
Hail, hail sons of metal
Release the hounds of hell

In a superficial time we are for real
We're like a legion made of steel
We stand on solid ground we still believe
We won't back down, won't deceive
Stand and deliver with the power in our hands
Stand and deliver 'cause we are in command

Hail, hail sons of metal
We were born and raised to release the flame
Hail, hail sons of metal
Release the hounds of hell
Hail, hail sons of metal
With the light from a thousand suns
Hail, hail sons of metal
Coming out with blazing guns
