

# Connected

## Means

I keep lying awake at night  
cause I cant sleep  
I know you remember me  
when you're gone  
how could we forget  
we're connected  
you can take this to the end  
I will be strong

You can take it  
you can take this to the end  
and further  
my brother  
I will be strong for you

I am sending you strength,  
sending you strength  
I hope we never forget  
my brother  
now I am sending you strength

How far do we have to travel  
just to be home again  
and will we recognize each other  
if there are scars on our faces

All of this time  
I know I could count on you  
you make me stronger than I could ever know  
As we move on  
you can take these words  
you can take these words from me

Take these words  
we cant forget we're connected  
Take more than words  
take life from this

All of this time  
I know I could count on you  
you make me stronger than I could ever know  
As we move on  
you can take these words  
you can take these words from me

I am sending you strength  
no matter where you are nothing changes  
I am sending you strength  
no matter where you are nothing changes

Sending you strength  
Sending you strength
