

The Promise

Means

Wooooooooahhhh!!!

I took and burned
what remained of myself
And there I broke it
into finest dust
Into pieces shattered,
and though I'm broken
I am not ashamed
I am not afraid

The one who sees you
will pull you through

If you feel like the only one
If you feel like you're on the outside
I know there's one who sees you so you don't have to be afraid

We won't be afraid anymore
We won't be afraid anymore

If you feel like the only one
If you feel like you're on the outside
If you feel like the only one
If you feel like you're on the outside

We won't be afraid (4x)
