

Live or Die

Meat Loaf

Daddy told me that his daddy said his daddy said, "Son,
Don't be going down with any bullets left in your gun"
He looked me in the eye, said, "Boy, make up your mind"

Live or die—grab it by the horns and baby take that ride
Live or die—give it up or give it everything inside
Fall of fly—won't do a bit of good of asking why
There's only two choices in life—live or die

I just wanna go out going hundred miles a minute, oh
Take every second of this life and spend all I can in it
No, I ain't got time to sit and bitch and whine

Live or die—grab it by the horns and baby take that ride
Live or die—give it up or give it everything inside
Fall of fly—won't do a bit of good of asking why
There's only two choices in life—live or die....

Daddy told me that his daddy said his daddy said, "Son,
Don't be going down with any bullets left in your gun"
He said, now

Live or die—grab it by the horns and baby take that ride
Live or die—give it up or give it everything inside
Fall of fly—won't do a bit of good of asking why
There's only two choices in life—live or die

(die)—never let a minute be a wasted time
Live or die—use it or lose it, make up your mind
Fall or fly—get on board or get left behind
There's only two choices in life—live or die

Oh now, live or die
(die)
(die) Oh now, live or die
(die) Now, live or die
(die) There's only two choices in life
(die)

There's only two choices in life....
