

## Special Girl

Meat Loaf

Into each life a little sunlight wants to shine  
Let me tell you fortune life that once was mine

She was a special girl  
She meant the world to me  
And I gave her everything

When I found her I'd been looking everywhere  
And when I lost her, I was lost beyond depair

She was a special girl  
She meant the world to me  
And I gave her everything

Dreams are hard to touch  
Could it be I love her too much

She was a special girl  
She meant the world to me  
And I gave her everything

Bottom line is she was fine in every way  
And it's not with hesitation that I say

She was a special girl  
She meant the world to me  
And I gave her everything

Dreams they come and go  
But thoughts, like love, will always grow
