Special Girl

Meat Loaf

Into each life a little sunlight wants to shine Let me tell you fortune life that once was mine

She was a special girl She meant the world to me And I gave her everything

When I found her I'd been looking everywhere And when I lost her, I was lost beyond depair

She was a special girl She meant the world to me And I gave her everything

Dreams are hard to touch Could it be I love her too much

She was a special girl She meant the world to me And I gave her everything

Bottom line is she was fine in every way And it's not with hesitation that I say

She was a special girl She meant the world to me And I gave her everything

Dreams they come and go
But thoughts, like love, will always grow
