

# A Hundred Miles

Meat Puppets

I've got a question, I got to know  
I see right what I'm looking for  
I see, I see, I see  
I got no hurry, I've got no fight

I know it's all in the hidden light  
I know, I know, I know  
I can't see it with my eyes  
But I can feel it

And it might just be  
A hundred miles away  
I can't see it with my eyes  
But I can feel it

And it might just be  
A hundred miles away  
I've got no business, I got no right  
And I know, that's not very nice

I know, I know, I know  
I can't see it with my eyes  
But I can feel it  
And it might just be

A hundred miles away  
I can't see it with my eyes  
But I can feel it  
And it might just be

A hundred miles away  
I can't see it with my eyes  
But I can feel it  
And it might just be

A hundred miles away  
I can't see it with my eyes  
But I can feel it  
And it might just be

A hundred miles away  
I can't see it with my eyes  
But I can feel it  
And it might just be

A hundred miles away  
I can't see it with my eyes  
But I can feel it  
And it might just be  
A hundred miles away
