Again

Meat Puppets

Rocket the grapes from the vine Turn all the icing to lead Turn all the lights off on yesterday's flowers

Shuts down again and again Fills up again and again Flashes of lightning in a river of love Falls down again and again

Once more again do we find Reality lingers behind To bury our memories in a hole by the road

Falls down again and again Fills up again and again Flashes of lightning in a river of love Falls down again and again

Once more again do we find Reality lingers behind To turn all the lights out on yesterday's flowers

Shuts down again and again Fills up again and again Flashes of lightning in a river of love Falls down again and again

Shuts down again and again Fills up again and again
