## **Armed And Stupid**

**Meat Puppets** 

Blue showers - stars open New pennies for heaven

And the sun wants a place in the sky As it spins all around And the rain thinks that it was only dreaming As it kisses the ground

No feeling poor shooting Find trouble so soothing

And the sun wants a place in the sky As it spins all around And the rain thinks that it was only dreaming As it kisses the ground

No body - pure science No body - no essence

And the sun wants a place in the sky As it spins all around And the rain thinks that it was only dreaming As it kisses the ground

And the sun wants a place in the sky As it spins all around And the rain thinks that it was only dreaming As it kisses the ground
