

# Enemy Love Song

Meat Puppets

I thought that it was over  
These seem to be the days of wine  
You've done as you please  
We're all so relieved

I wanna be a rainbow  
Laid out across the stormy skies  
You've done as you please  
Now down on your knees

There's a shudder in the evening wind  
I can feel it in my ear again  
Like a rabbit and a carrot fit away

There's a shudder in the evening wind  
I can feel it in my ear again  
Like a rabbit and a carrot fit away

You turned into a monster  
I hope your new life turns alright  
You've done as you please  
We're all so relieved

There's a shudder in the evening wind  
I can feel it in my ear again  
Like a rabbit and a carrot fit away

There's a shudder in the evening wind  
I can feel it in my ear again  
Like a rabbit and a carrot fit away

No is a better number  
I'll do a better job for free  
You've done as you please  
Now down on your knees

There's a shudder in the evening wind  
I can feel it in my ear again  
Like a rabbit and a carrot fit away

There's a shudder in the evening wind  
I can feel it in my ear again  
Like a rabbit and a carrot fit away

There's a shudder in the evening wind  
I can feel it in my ear again  
Like a rabbit and a carrot fit away

There's a shudder in the evening wind  
I can feel it in my ear again  
Like a rabbit and a carrot fit away
