

## Love Our Children Forever

### Meat Puppets

Some come away with an armload of hay  
One sails to market on her sea  
Some like to say they'll do it yesterday  
One starts his car without a key

Some come to play  
And they throw it all away  
Love our children forever  
Love our children forever

Some cut the trees and stack them in the sand  
One shoots up into the sky  
Some do what they please  
The world's at their command

Some come to nothing by and by  
Some come to play  
And they throw it all away

Love our children forever  
Love our children forever  
Love our children forever  
Love our children forever  
Love our children forever  
Love our children forever  
Love our children forever
