

## Radio Moth

Meat Puppets

I wanna be  
I wanna be right out there  
And watch it blow right out of the radio

I gotta be  
I gotta be like something  
And watch my face come out of the radio

Never listen  
Never listen  
Never listen  
Never listen

A bell has gone  
About to be half open  
And watch it blow straight out of the radio

Never listen  
Never listen  
Never listen  
Never listen

You gotta dream  
About a thing or something  
And let 'em all flies out of the radio

Never listen  
Never listen  
Never listen  
Never listen

Never listen  
Never listen  
Never listen  
Never listen

A bell has gone  
About to be half open  
A bell has gone  
About to be half open
