

## Swimming Ground

### Meat Puppets

The sun is up and beating down  
It's hot enough to melt the ground  
A little water would do us good  
The clouds would help us if they could

They'd send showers of pouring rain  
Get everything wet again  
We could go and float around  
In our favorite swimming ground

The best place I ever found  
Wasn't close to any town  
Was a little swimming ground  
Everything just floating around

Out to lunch and out of town  
It's pretty close to falling down  
A little water would do us good  
The clouds would help us if they could

They'd send showers of pouring rain  
Get everything wet again  
We could go and float around  
In our favorite swimming ground

The best place I ever found  
Wasn't close to any town  
Was a little swimming ground  
Everything just floating around

The sun is up and beating down  
It's hot enough to melt the ground  
A little water would do us good  
The clouds would help us if they could

They'd send showers of pouring rain  
Get everything wet again  
We could go and float around  
In our favorite swimming ground

The best place I ever found  
Wasn't close to any town
